

# Themyscira/Cry Havoc

## 1 Overview

Maxwell and Cyborg arrive on the docks of Themyscira and find the island under siege by its own people. Wonder Woman flies above scouring the area and sees Cyborg and Maxwell, two men, on her island. She dive bombs Cyborg and yells at them to get off her island. Cyborg informs Maxwell that Themyscira is an island for Women only and the two run inside a nearby structure. Safe from Wonder Woman's gaze, Cyborg and Maxwell find Lennox waiting inside. He too having been attacked by his half-sister, is seeking shelter only to find a group of hostile Amazonians. Not wanting to harm them, Maxwell and Cyborg must help him disable each of them so they can safely pass.

The three head into the Colosseum nearby, once again being sure to stay out of the open. There they find Hermes, hiding from Cerberus. Maxwell must utilize Cyborg, Lennox and Hermes to defeat Cerberus - as Maxwell himself would never be able to harm the mythical creature. Once returned to Hades - the four head up to level two of the Colosseum where Lennox, Hermes and Cyborg run into several Amazonians. Maxwell provides an object that overcharges Cyborg and he releases an energy pulse and knocks them all out. The gang then head up to the third floor where Ares is. Hermes and Lennox become evil and knock Cyborg and Maxwell through a wall and out onto the terrace of a nearby building.

Cyborg notices Wonder Woman is near, but seems to not have seen. Maxwell distracts her and Cyborg uses a boomtube to teleport behind her, grab on and the two plummet onto the docks where they started. Maxwell jumps down and enters her Psyche. Once she's free, she flies up to Ares, knocks him down and releases Hermes and Lennox. With Ares knocked out, Themyscira become peaceful and Wonder Woman grants Maxwell freedom to walk among the Amazonians.

#### Additional Information: Who is Lennox?

One of the many sons of Zeus, he lived for over eighty years, and he first discovered his heritage during World War II, after surviving a German bombing. He called that experience a "Baptism by Blitzkrieg". He later fought during the same war.

Heavy smoker, he speaks with a strong accent and British slang. He generally dresses with casual street clothes, like yellow jogging suits, long trench coats and sport shoes, and has a golden chain around his neck. He describes himself as "a man with the advantage", and makes several reference about how "the wind" speaks to him and gives him advices and information. This wind is later revealed to be another of Zeus' children Siracca. Other than that, he comes across as being generally confident but simple minded, zany and prone to jokes.

Lennox's skin has the same consistency of rock, which makes him almost invulnerable; at the same time, if hit with enough strength, cracks are left in his body the same way scars normally would. He later explains that his powers consist in "organic-rock" and even if cracked, he ends up healing with time.
